REA ... Real review, Real practice, Real results.

This research analyzed students final exam scores in a college mathematics class with geometric components and their van Hiele levels upon entering the class. After the class was completed, each student's final exam grade was calculated. The researcher

# Bookmark File PDF Honors Geometry Final Exam With Answers

used a Spearman correlation to compare the two; the result was a correlation coefficient of 0.742. The researcher then reported that the results of the van Hiele test are a major component in predicting a student's success in such a class.--P. 1.

Sixteen-year-old Mia Hughes is not really a bad girl. She's just made one bad decision after another, like mixing in with the wrong crowd and disappearing for days at a time. Her latest move has forced her parents to do the unthinkable—send her away to boarding school. Trying to make sense of her new

world, far away from Pittsburgh, is only half the battle for Mia as she fights to survive the wicked ways of the rich, spoiled kids at Galt Academy. But Mia is a fighter, and when she befriends junior Lucas Dunlap, the cute coffee shop guy, and his friend, Natalie, things start to look up for her—until the betrayal. After falling into a deep depression, Mia resorts to the one thing she does best: running away. There's only one problem—Lucas has a hold on her. And just when Mia thinks life can't get any more complicated, it does with some life-changing news. Can Mia keep her head above water long
